First-level Degree Course

Movement Sciences
(Class L-22)

www.uniparthenope.it

COURSE OVERVIEW

Graduates in Movement Sciences are provided with the specific professional skills needed to work in the field of sports and physical education, particularly in the following roles:

- Leading, managing and assessment of individual and group fitness activities
- Leading and monitoring the individual and group programmes for education, play/recreation and sport, with the aim of developing and maintaining psycho-physical wellbeing, through the promotion of active life-styles.

CAREER PROSPECTS

Graduates can find employment with:

- social and recreational sports and exercise centres
- sports and leisure organizations
- fitness and wellness centres
- companies, associations, clubs and other organizations working in the tourism and leisure industry
- special wellness and fitness centres run by local government

Under current Italian legislation, the degree in Movement Sciences is not in itself a qualification for any profession within the health system.

SYLLABUS

The degree course in Movement Sciences provides students with the scientific knowledge needed for the various fields of individual and group physical activity, with particular emphasis on technical and sports subjects, as well as management, education and prevention.

The course is aimed to train experts in sport and exercise management for psycho-physical wellbeing in a tourism, play and recreational context. Traditional teaching takes place alongside technical and practical internships in individual and team sports, as well as elective activities. The internships organized together with the CUS Napoli student sports centre and selected sports associations are supplemented by classes in sports and exercise subjects aimed to develop specific practical and operational skills in the field.

The course is open to a limited number of students through a selection process based on multiple-choice tests on general knowledge and questions to verify the eligibility of candidates for the modules offered by the degree course. The entry requirements are published in the University Notice Board and on the website www.uniparthenope.it.
